

Subject : support French nomination EHF executive board

Dear Angus,

The French Hockey Federation strongly supports the nomination of Pamela Michaelis as member of the European Hockey Federation's executive board.

Pamela and her family have been active in French hockey in several roles and different fields for years. Pamela is experienced in development, communication, competition, and education.

Her mission from French hockey will be development and more specific development of female hockey. The 2024 Paris Games will be a great opportunity to develop hockey in France. As member of the EHF executive board Pamela will be able to share good practices that will be useful to the whole European hockey family.

The French Hockey Federation fully endorses the initiatives and values of the European Hockey Federation and recognizes the importance of having a French representative in the EHF executive board. Therefore we are very proud of re nominating Pamela Michaelis.

Kind regards,

Isabelle JOUIN  
FFH President
